Professional Summary

Recent Electronics and Communication Engineering graduate with hands-on experience in embedded systems and strong foundational knowledge of Python, HTML, CSS, JavaScript, React.js, SQLite, C, and Verilog. Completed an Embedded Systems internship at Emertxe and currently pursuing Python Full-Stack training. Passionate about software development and eager to begin a career as an entry-level Software Developer.

Technical Skills

Programming: Python, C, JavaScript, Verilog

Web: HTML5, CSS3, React.js

Database: SQLite

Concepts: SDLC, API Integration, Embedded Systems, FPGA

Experience

Embedded Systems Intern | Emertxe

- Designed, developed and debugged embedded applications.
- Worked with C programming, microcontrollers and SDLC-based development.
- Gained practical experience in embedded system design and testing.

Projects

Traffic Light Controller using FPGA

- Developed a Verilog-based finite state machine for a four-way traffic signal controller with accurate timing and manual override.

YouTube Clone

- Built a responsive React.js application with video search, API integration, reusable components, React Hooks and dynamic video playback.

IPL Dashboard

- Developed a React.js dashboard displaying match schedules, team statistics and player performance using API data and responsive UI.

Education

B.Tech, Electronics and Communication Engineering – Rajiv Gandhi University of Knowledge Technologies (2020–2024) | CGPA: 8.1/10

Intermediate – Rajiv Gandhi University (2018–2020) | GPA: 8.3/10

SSC – ZPHS Lingareddy Palli (2017–2018) | GPA: 10/10

Training

Python Full-Stack Developer Program (Ongoing) – NxtWave

Certifications

Gen AI Mega Workshop 2.0

Ethical Hacking Mega Workshop

UI/UX Mega Workshop

Languages

English (Advanced)

Telugu (Native)
